

I appreciate XM Radio very much. I live in an area that does not have many radio stations at all. I love the variety and quality of the stations. I pay for these services and the more that XM offers the better. I absolutely love the weather and traffic channels. I travel to Michigan ever couple of months and the Detroit weather station helped me through a huge rain storm and avoided flooded areas just this past weekend. I believed that the weather and traffic information saved my life. Please reject the NAB's petition 04-160 and let me enjoy the growing services that XM Radio provides. The difference it makes in my life is amazing.
